

wirelessenterprise

simplywireless, in conjunction with Cisco Systems, invites you to a free breakfast seminar, Wednesday December 3rd, where we will discuss the benefits wireless technology can bring to your business.

Based upon Simply Wireless's own experiences and a number of real-life enterprise case studies, this seminar provides a thorough evaluation of wireless technology issues such as Wi-Fi mobility, Wi-Fi security (WPA & 802.1X), Costs vs. Benefits and enterprise deployment considerations. The case studies will cover enterprise deployments from secure global wireless LANs to public access and some inter-building wireless bridges. simplywireless, in conjunction with Cisco Systems, looks forward to sharing their experience in deploying cost-effective wireless solutions that are reshaping the way business is done.

Who should attend?

The simplywireless information day is aimed at executives considering wireless deployments in their enterprise. The scope of this presentation will be business issues in wireless enterprise scenarios.
