

Simplyenterprise

simplywireless™ invites you for a free wireless networking breakfast seminar for a discussion of 802.11 (wifi) technologies at Cisco Systems' office in North Sydney on Oct 1.

This wireless seminar covers everything you wanted to know about wireless LAN technologies but were afraid to ask. simplywireless™, in conjunction with Cisco Systems, looks forward to sharing their experience in deploying cost-effective wireless solutions that are reshaping the way business is done and finding innovative ways for you to benefit from the technology.

Who should attend?

The simplywireless™ information day is aimed at executives considering wireless deployments in their enterprise. The scope of this presentation will be business issues, with two senior members of the Simply Wireless technology team presenting an update of security, wireless network strategy & deployment, speed considerations and applications.

Discussion Topics

- 8:30am **Introduction to 802.11, Technology 101, Business case studies**
Desmond O'Geran (CEO, Simply Wireless)
- 9:15am **Wireless LAN Design Considerations**
Graham Robinson (Wireless Network Architect, Simply Wireless)
- 10:00am **Wireless Security**
Philip Blow (Senior Technology Manager, Simply Wireless)
- 10:45am **Questions & Answers**
- 11:00am **Morning Tea or Coffee** & more opportunities to ask questions.
